Mentor- Mentee Scheme

Mentor-Mentee Scheme for College Students

The Mentor-Mentee Scheme is a supportive initiative run by our college to enhance the overall development and well-being of students. This program fosters a close and productive relationship between teachers and students, providing guidance and support throughout their academic journey.

Key Features of the Scheme:

1. Mentor Allocation:

- Every teacher serves as a mentor and is assigned a group of students as mentees.

2. Regular Meetings:

- Mentors conduct a minimum of two meetings annually or one meeting each semester to connect with their mentees.

3. Holistic Guidance:

- Mentors address mentees' challenges, including:
 - Personal Issues: Providing emotional support and guidance.
 - Academic Problems: Offering advice on courses, study strategies, and performance improvement.
 - Economic Concerns: Assisting with scholarships, financial aid, or other relevant resources.

4. Administrative Support:

- Mentors assist mentees in completing essential tasks such as filling out examination and scholarship forms.

5. Building Relationships:

- The program encourages mentors to establish a strong rapport with their mentees, creating a safe and encouraging environment for communication and growth.

Through this scheme, we aim to provide every student with a guiding hand to navigate challenges, achieve academic excellence, and prepare for a successful future. Let's work together to build a thriving community of learners and mentors!
